

EUROPEAN DRONE FORUM 2025

17-18 February 2025 | Düsseldorf, Germany | #EDF25

EUROPE'S LEADING UAS EXPERT CONFERENCE

HOSTED BY  **UAVDACH** IN ASSOCIATION WITH

ASSOCIATION FOR UNMANNED AVIATION

The EUROPEAN DRONE FORUM is the leading expert conference for unmanned aviation in Europe. Don't miss the opportunity to position your brand in this unique environment and amongst decision makers from the whole drone economy.

The conference is the most prestigious event where experts from national and European regulatory authorities meet directly with representatives of the UAS industry. All participants involved benefit from the exchange of ideas and open discussions about the most important issues for the future of unmanned aviation.

WHERE THE FUTURE OF DRONES IS BEING DISCUSSED

The next edition of the EUROPEAN DRONE FORUM on 17-18 February 2025 will be the first #EDF to take place in Düsseldorf - and as part of the inaugural XPONENTIAL Europe. Then the focus will once again be on identifying the main obstacles for the UAS industry and, of course, to jointly discuss ways in which these can be cleared out of the way. Perfectly in line with the theme of the EUROPEAN DRONE FORUM 2025: "Shaping the future: Clearing obstacles to commercial UAS operations in Europe"

The conference is organized by the UAV DACH - Association for Unmanned Aviation in cooperation with Messe Düsseldorf. Industry representatives, UAS manufacturers and operators, technology experts and all other drone pioneers are invited to shape the future of the European drone economy. Being a Partner to this event means a unique platform to present and develop products and services to a highly specialized and interested audience.

So don't miss your chance and book your partner package today.
